Halifax County

In June, 1749, the Honourable Edward Cornwallis founded a fortified settlement at Halifax to counteract the French fortress at Louisbourg. The site was chosen for its large natural harbour which was ice free the year round. A year later 350 English settlers landed across the harbour from Halifax, to found the community of Dartmouth. The area remained primarily a shipping and military centre through the nineteenth century. Halifax was incorporated as a city in 1841 and Dartmouth as a town in 1873.

By the early twentieth century, Halifax was the major defence base of the east coast. During World War I, the area became active with shipbuilding and the formation of convoys to carry men and supplies to Europe. In 1917, an explosion, caused by the collision of two ships in the harbour narrows, flattened large portions of Halifax and Dartmouth, killing over 2,000 and injuring 8,000. The twenties and thirties were spent in rebuilding in time for the active period of World War II when once again the nation's war effort was channeled through the port of Halifax, as large convoys formed in Bedford Basin.

The economy of the Halifax-Dartmouth area today is a diversified one. Maritime Command is headquartered in Halifax with the largest concentration of Armed Forces personnel in Canada. Federal and provincial governments are large employers also. Most of the major financial institutions have Atlantic regional headquarters in the metro area. Industrial parks, such as Burnside in Dartmouth, are attracting numerous manufacturing and distribution facilities. Despite its diversity, the Halifax area still derives much of its economic significance from its harbour and its strategic position on international commerce lanes. This activity is personified in the container movements which have brought the port increasing activity over the past years, particularly with the recent addition of a second container pier.

* not shown
> area is larger than in other Census year

Due to the lack of legal or official boundaries, it is not always possible to distinguish the population of these unincorporated places from that of the surrounding area. Census enumerators were instructed to indicate distinctly on their records all households living in dwellings grouped fairly closely together within an area locally known by a specific name. The degree of success achieved in this procedure has varied from area to area. For example, the post-office address has sometimes been confused with the actual location of the dwellings, making it difficult to determine the exact number of persons living in the locality proper.

For such reasons as mentioned above, the population totals shown in this report for 1976 and 1981 should be considered as approximations.

[1]Low income statistics are based on the revised (1978) cut-offs which were initially estimated from the 1978 National Family Expenditure Survey and then updated to 1980 by the changes in the Consumer Price Index since 1978. The cut-offs are based on size of family unit and population size of area of residence.

Rail

Halifax is the Atlantic terminus of the Canadian National Railway. In addition to its main line connections, it provides freight service between Halifax and Upper Musquodoboit, Yarmouth and Truro through to Sydney. The Dominion Atlantic Railway provides freight service to Yarmouth via the Annapolis Valley. A truck service to Saint John, New Brunswick, is provided via ferry at Digby.

VIA Rail provides rail passenger service from Halifax to Fredericton and Montreal via Moncton and from Halifax to Yarmouth and Sydney.

Regular express, pick-up and freight services are provided by both CN and CP. There are numerous marshalling yards and sidings; tracks run to all deepwater berths of the port, including autoport and the container terminals.

TRANSPORTATION (Continued)

Air

The Halifax International Airport, approximately 40 kilometers from Metro Halifax, is served by three passenger carriers, Air Canada, C.P. Air and Eastern Provincial Airways. Its two runways measure 2,347 and 2,682 meters respectively. In 1980, arriving passengers numbered 951,012, while departing passengers totalled 954,886. Incoming cargo was 8,611 metric tons and outgoing cargo was 8,914 metric tons.

A Canadian Forces airport at Shearwater is only used by commercial airlines in emergencies.

Bus

Acadian Lines Limited provides daily service between Halifax and Truro, Amherst, Sydney and via the Annapolis Valley to Yarmouth. The MacKenzie Bus Line Limited operates regular daily service between Halifax and Yarmouth via the South Shore. Small independent lines provide service to Peggy's Cove and Guysborough County. Airport Transfer Company Limited provides transport to Halifax International Airport. Parcel express services is available with all bus companies.

The Metropolitan Transit Commission, a municipally-owned and operated system, with a fleet of over 142 diesel buses. serves Metropolitan Halifax-Dartmouth, including Halifax, Dartmouth, Bedford, Sackville and Herring Cove.

Two toll bridges connect Halifax and Dartmouth, in addition to a passenger ferry service.

Marine

The ice-free, deepwater port of Halifax offers extensive warehousing facilities and year round shipping between major world centres. Thirteen point three million tons of cargo were handled at the port in 1981. The port facilities include 32 deepwater berths, 16 transit sheds, a grain elevator, a refrigerated warehouse, 4 floating cranes, repair, towing and bunkering services and two container terminals. one operated by Halterm, the second by Ceres An auto port is located at Eastern Passage.

There are also established port facilities in Sheet Harbour, which include a general wharf with a berthing length of 61 meters.
